

Los POTROS MALAMBO

HERMANOS GARDELLA

Dance Company

The top Malambo group in Argentina

Present: Pulsaciones de Nuestra Tierra

Their latest smash hit, presented at the Pastelito and Tachuela Chico Circus at the Florida Center Mall, Chile.

A one-of-a-kind show

The ensemble's energy, accompanied by live music, is incredibly impactful. Their passion, charisma, and body language create a performance that transcends traditional folklore and malambo.

The Gardella Brothers

Javier and Isaac Gardella, directors and choreographers of the band. They are in charge of showing the malambo to everyone.

Isaac Gardella

He participated in various folklore festivals, such as Cosquín Festivals, Bonaerense Tournaments, and American Dance. Thus, he won numerous prizes, being recognized by his fellow dancers and the judges. Each of these competitions encouraged him to continue growing in his chosen path. It is worth noting that he made his artistic debut in a competition at the age of 4!

Javier Gardella

His artistic inclinations were manifest from his earliest years!

He immersed himself in his dance studies at the age of 3. He delved into folk dance, malambo, and flamenco. In parallel, he learned to play the drum and other percussion instruments. As the eldest of the brothers, he knew how to share all wisdom on Isaac.

Pura Sangre

A show that is a powerful demonstration of the professional growth of northern malambo, in expressive crossover with other languages of contemporary dance.
